Directory of Schools of Construction

Construction Executive presents its second annual directory of U.S. colleges and universities that offer programs for students interested in construction careers. Schools that were unable to confirm their listing by *Construction Executive's* deadline were not included. To help ensure an unlisted school appears next year, contact editor@constructionexec.com.

ALABAMA

Auburn University

118 M. Miller Gorrie Center,
Auburn University, AL 36849
www.cadc.auburn.edu/bsci
Contact: J. Mark Taylor
Phone: (334) 844-5305
Fax: (334) 844-5386
Email: taylojt@auburn.edu
Programs: Architecture,
Building Science, Design-Build
Program Length: 4 years
(bachelor's); 1 year (master's)
ABC Student Chapter

Jefferson State Community College

Construction and Building
Science Technology
2601 Carson Road,
Birmingham, AL 35215

UNC CHARLOTTE

The WILLIAM STATES LEE COLLEGE of ENGINEERING

Construction Management and Engineering Technology

Programs of study in the construction science and engineering technology fields include Bachelor of Science degrees in the following disciplines:

- Construction Management
- Civil Engineering Technology
- Electrical Engineering Technology
- Fire Safety Engineering Technology
- Mechanical Engineering Technology

Graduate Programs Coming Soon (pending UNC System Board of Governors approval):

- Master of Science in Construction & Facilities Management
- Master of Science in Fire Protection & Administration

The University of North Carolina at Charlotte consistently ranks as one of the Southeast's top academic institutions. Over 24,500 students study on a 1,000-acre wooded, suburban campus near the Carolinas' largest city. Charlotte is only a two-hour drive from the mountains and three hours from the coast.

Our Students:

- Choose from five programs of study in Engineering Technology and Construction Management
- Study, work in teams, and share experiences with 850 students in the Department
- Learn through applied technical courses and hands-on laboratories and projects
- Interact with experienced professors who possess many years of real-world engineering design experience
- Enjoy the rich and exciting activities of campus life available at UNC Charlotte

Our Graduates:

- Choose from a variety of exciting career options
- Enjoy well-paid professional careers with high employment rates and upward career mobility

So, if you are looking for a challenging program in a rapidly-growing, dynamic university, situated in a metropolitan setting... where we're large enough to offer an array of extracurricular activities, yet small enough to provide an individualized atmosphere... and, if you want to study with a diverse peer group in a hands-on, applications-oriented program alongside accomplished, industry-experienced faculty, then...

CONSTRUCTION MANAGEMENT or ENGINEERING TECHNOLOGY at UNC CHARLOTTE may be for YOU!

GOODWIN COLLEGE
Leading-edge Learning

**DREXEL
MADE
FLEXIBLE**

Employment of construction managers is expected to increase by 16% in the next decade.*

**Be Ready.
Get the leadership skills you need to succeed in the challenging, multi-faceted construction industry.**

*National Employment Matrix, 2006-2016

Master of Science in Construction Management

If you are a recent construction management or engineering graduate, a practitioner seeking advancement or a career changer, Drexel University's M.S. in Construction Management is for you.

The program consists of 45 quarter credit hours which include a core of five required courses and 24 credits in one of the following concentrations:

- Construction Project Management
- Sustainability and Green Construction
- Real Estate Development

Drexel also offers graduate level credit certificates in any of the three concentrations.

Learn more about this exciting new program.

...empowering your future

When Change Presents Opportunity

It's no longer business as usual.

Increasingly, the U.S. workforce — with different ethnicities, educational backgrounds and life experiences — is more diverse than ever. Construction-related businesses are facing this reality as much as any industry.

Now, a FREE resource helps ABC members think more strategically

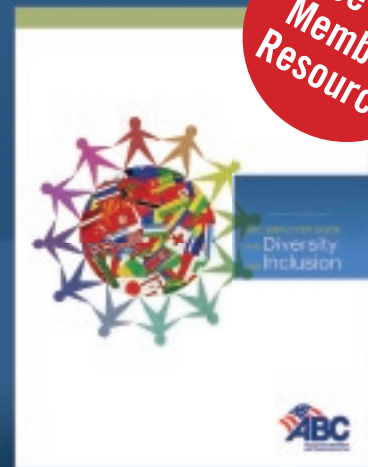

about their changing workforce, as well as the demands of their customers. The recently updated and enhanced *ABC Employer Guide for Diversity and Inclusion* provides best practices and actual case studies of construction companies that have successfully turned workplace diversity into their greatest strength.

Get Your Free Copy Today!

To order the *ABC Employer Guide for Diversity and Inclusion* visit www.abc.org/DiversityGuide.

For more information, contact Jen Huber, ABC Director of Member Services, at (703) 812-2033 or huber@abc.org.

Free ABC
Member
Resource

The *ABC Employer Guide for Diversity and Inclusion* will help you:

1. Stimulate creativity and innovation among your employees
2. Maximize your company's productivity and competitiveness
3. Create a more energetic workforce
4. Open up business development opportunities with owners
5. Adapt quickly to economic changes
6. Demonstrate community leadership
7. Attract and retain the best and brightest talent
8. Satisfy the demands of your customers

Program Length: 4 years (bachelor's); also offers master's degree
Tuition: \$136/credit hour (undergraduate); \$217/credit hour (graduate)

NC STATE UNIVERSITY College of Engineering

Earn your Construction Project Management Diploma this summer from NC State University on campus or online by completing 5 of the following courses.

Fundamentals of Blueprint Reading - July 26, 2010

Fundamentals of Construction Contracts and Negotiation - August 2, 2010

Fundamentals of Estimating and Bidding - August 9, 2010

Fundamentals of Planning, Scheduling and Project Control - August 16, 2010

Fundamentals of Cost, Cash Flow and Financial Controls - August 23, 2010

Fundamentals of Construction Safety - August 30, 2010

Attend and You Will:

- Obtain a solid foundation of current principles and practices of construction project management
- Earn a respected diploma that will enhance your skills and construction career
- Enjoy the benefits of personalized and interactive teaching while networking with experienced construction professionals *OR*
- Participate in the online courses from your work or home.

For more information, visit the Engineering Online web site at <http://EngineeringOnline.ncsu.edu> or call 877.254.0058.

Programs: Construction Engineering, Construction Management
Program Length: 4 years (undergraduate); 9 months-2 years (graduate)
Tuition: \$267/credit hour (undergraduate, resident); \$283/credit hour (graduate, resident)

Construction Management at Michigan Tech

Our graduates are well known for their practical knowledge. They use the newest construction techniques from their very first day on the job. They can help your company create the future.

"The construction management program at Michigan Tech helped to give me the confidence and the knowledge to succeed as a field engineer at GLDD. The course work and style of teaching gave me a solid base to build my career upon."

CONSTRUCTION MANAGEMENT

Plan and build a better future

PRATT

Facilities Management is the management of facilities and equipment as assets to assure a quality environment and cost-effective investment. Get the skills to assume executive responsibilities — strategic planning, financial forecasting and budgeting, and real estate acquisition and disposal in Pratt's IFMA accredited graduate program.

http://www.pratt.edu/academics/architecture/facilities_management/

Construction Management is the orchestrating and focusing of all needed forces towards the successful completion of a project. Learn the skills to plan and manage complex construction projects from concept through completion in Pratt's four-year undergraduate program.

http://www.pratt.edu/academics/architecture/construction_management/

Full-time/part-time studies and financial aid/scholarships available. Evening program for working students located at Manhattan campus.

Draw it. Build it. Make it.

Request information at www.pratt.edu/request, call 212-647-7524 or email fm@pratt.edu or cm@pratt.edu

MASTER OF SCIENCE IN Construction Management

- Enrollment is limited to the best and brightest construction managers in New England.
- The program was developed in collaboration with leading construction companies.
- The blended-delivery course model incorporates online, classroom and resident instruction.
- Gain skills to command interdisciplinary teams from preconstruction to close-out stages of projects.
- Learn to facilitate construction in a global, economic, environmental and societal context.
- Professors have varied backgrounds including law, architecture, historic preservation and engineering.

Elevate Your Market Perception with Custom Reprints from *Construction Executive*

For more impact, include the front cover of *Construction Executive* with your advertisement or other supplied materials.

Custom reprints from *Construction Executive* are highly effective marketing tools. A reprint of an authoritative article instantly elevates your firm's market perception and positions you as an industry expert. Reprints can be backed up with your company logo and office locations, a full page ad or other supplied materials. Custom reprints make excellent handouts for trade shows, sales calls and presentations. Digital reprints enhance your website and email marketing efforts. Digital reprints are included free with every printed reprint order, or can be ordered separately.

CUSTOM REPRINT PRODUCTION:

A \$50 setup fee accompanies all custom reprint orders to traffic the requested pages and get the job set up in production, billing and quality-control systems. Professional graphic design services are available for ad removal, repaginating articles, reflowing copy and incorporating customer-supplied materials. Call us with your reprint idea for an estimate of design fees.

Construction Executive Reprint Price List

Economy Service — Delivery in 14–16 business days. Expedited delivery available.

# PAGES	250	500	1,000	2,000	3,000	5,000	10,000
1	\$ 375	\$ 495	\$ 645	\$ 895	\$1,045	\$1,295	\$1,695
2	495	595	795	995	1,145	1,395	1,795
